

Hi, I'm Allie!

I'm a front-end developer with a passion for building **modern, equitable,** and **accessible software applications**. With four years of experience as a front-end developer in the healthcare industry, I have seen firsthand how software greatly impacts the lives of those who use it - *especially* those in healthcare. With the patients and clinicians in mind, I understand the importance of **intuitive, efficient,** and **responsive** software. At Noctem, I have been able to contribute my knowledge and experience to support the care patients receive and improve the daily lives of the care providers.

Skills

Javascript, Angular, Typescript, HTML, CSS, SASS, Bootstrap, Ionic, Git, NPM, RESTful API, JSON, AJAX, Jasmine, Karma, JIRA, Confluence, Jenkins, BitBucket, Swagger, Postman, Wordpress, Divi, Figma, Adobe XD, Sketch, Sympli, Invision

Experience

Front End Developer, Noctem (Startup) - *digital care provider for Behavioral Sleep Disorders*
July 2021 - Present (1 year) Remote

- Single-handedly overhauled the UI of the Angular application, leading to a 15% increase in patient satisfaction
- Single-threaded front-end SME who interfaced with all internal business groups for developing new features, product demos, and establishing an Agile workflow
- Worked closely with UX designer, on feasibility of designs and was responsible for providing estimated development timelines
- Conducted multiple user interviews with clinicians and patients and implemented app improvements based on user feedback.
- Proactively increased developer productivity by refactoring the project to follow Angular best practices

Angular Developer, DaVita Kidney Care - *a Fortune 500 company, and the leading provider of kidney care in the US*

May 2018 - July 2021 (3 years) Brentwood, TN

- Integrated RESTFul API's with the front-end application to display and update data using Angular
- Translated complex business requirements into efficient, clean, and well-tested code
- Collaborated within a team of other developers to solve problems utilizing Angular, SASS, Restful API's, and JSON to meet technical and business-related needs
- Implemented unit tests for new functionalities using Jasmine/Karma and resolved defects in an AGILE environment

Education

- **JavaScript/Front End Development** focused curriculum including instructor based online seminars, books, interactive courses, and concentrated exercises
- **Graduated with Advanced Diploma** from Wetumpka High School c/o 2017
