EXPERIENCE

Angular Developer, DaVita

May 2018 - Present (3 years) Brentwood, TN

→ Integrated RESTFul API's with the front-end application to display and update data using Angular

→ Translated complex business requirements into efficient, clean, and well-tested code

→ Collaborated within a team of other developers to solve problems utilizing Angular, SASS, Restful API's, and JSON to meet technical and business-related needs

→ Implemented unit tests for new functionalities using Jasmine/Karma

→ Troubleshooted and resolved defects in the project, while tracking progress and updating defect statuses in JIRA

→ Consulted with project managers, business administrators, SCRUM Masters, UX designers, and QA teammates daily to assess the progress of the current sprint and address any limitations for the release

PROJECTS

Streakh - A web app built in Angular to help the user build new habits (2019)

Tornilastra - Small Business built from scratch with HTML/Bootstrap/JS (2018)

Random Cushing - Art portfolio built with Wordpress and Divi (2020)

Hi, I'm Allie!

I am looking to contribute my knowledge of building *complex single page web applications* using *Javascript, Angular,* and *HTML/CSS*. In addition to my development experience, I have also improved upon my ability to *efficiently solve pressing problems, collaborate within a team,* and *navigate blockers independently.* My experience in healthcare has driven me to pay *careful attention to the details* in my work and has given me an *eagerness* to add value in every way that I can.

SKILLS

Javascript, Angular, HTML, CSS, SASS, Bootstrap, Figma, Adobe XD, Sketch, Sympli, Invision, Git, NPM, RESTFul API, JSON, AJAX, Jasmine, Karma, JIRA, Confluence, Jenkins, BitBucket, Swagger, Postman, Wordpress, Divi, Microsoft Office Suite
